EXECUTIVE SUMMARY

Engineering student focused on AI, software development, and product building. Built AI-powered applications using Python, React, and modern retrieval techniques, and currently developing hirEd, an AI-powered platform connecting skill development with employment. Interested in building practical products that solve real-world problems.

TECHNICAL SKILLS

Programming Languages: Python, Java, C, C++, JavaScript, SQL
Web Development: React.js, HTML, CSS, Spring Boot, REST APIs
Databases: MySQL, FAISS
AI/ML: RAG, LangChain, NLP, Sentence Transformers, BM25, Cross-Encoder
Tools: Git, GitHub, GCP, Docker, Streamlit, VS Code

SOFT SKILLS

Problem Solving, Communication, Team Management, Leadership, Adaptability, Public Speaking

PROJECTS

DocuMind AI – Intelligent Document Assistant
Tech Stack: Python, Streamlit, FAISS, LangChain, Sentence Transformers

- Built an AI-powered document question-answering platform with document ingestion and chunking.
- Developed hybrid retrieval using FAISS and BM25, with reranking via Cross Encoder models.
- Designed confidence scoring and source-backed citation generation in an intuitive Streamlit interface, reducing hallucinations through retrieval-based answering.

Smart Academic Command Center (SACC)
Tech Stack: React.js, Spring Boot, MySQL

- Designed an academic workflow automation platform with timetable conflict management.
- Developed exam seating optimization and invigilator duty allocation with role-based dashboards.
- Designed an academic workflow automation concept for institutions with 1700+ students, covering exam seating, invigilation allocation and timetable conflict management.

PROFESSIONAL EXPERIENCE

HirEd2025 – Present
Founder & Tech Lead

- Founded an AI-powered upskilling and hiring platform; designed product architecture and workflows.
- Led development of roadmap generation and hiring automation modules.
- Coordinated UI/UX, development, and research teams; managed project timelines and sprint planning.
- Conducted market research and competitor analysis to define product strategy and growth plans.
- Developed MVP concept integrating learning and recruitment, leading cross-functional teams in product planning.

EDUCATION

Bachelor of Engineering (B.E.) – VLSI Design **2024 – 2028**
Rajalakshmi Institute of Technology

CERTIFICATIONS & ACHIEVEMENTS

- NPTEL Patent Drafting – Secured 80%
- Google Cloud Fundamentals

Interests: Artificial Intelligence, Software Development, Product Management, Entrepreneurship
